ADM-1

MEMORANDUM FOR: Executive Director

SUBJECT : Scientific and Technical Career Service Committee

REFERENCES : (a) Memo dtd 20 Nov 62 to Executive Director fr
D/Pers, same subject

(b) Memo dtd 2 Nov 62 to Executive Director fr
DD/R, same subject

No problem where such is involved. Not pertinent to many of functions. See para 8. pg. 2.

1. I applaud the establishment of a committee for scientific and technical personnel and believe it can be a real asset to the Agency in the "care and feeding" of such personnel. However, I feel very strongly that, insofar as personnel policies are concerned, the Director of Personnel must have the responsibility and that this committee must be advisory to him. He has the responsibility for coming forward to the Executive Committee with any proposals affecting this group just as he does for any other group.

2. I have no reason to think that the Deputy Director (Research) has any contrary ideas on this subject but would like to see the basic charter amended along these lines before it is officially issued.

25X1A

Deputy Director
(Support)

cc: Director of Personnel
